Dear Sir/Madam:

ATOFINA Chemicals, Inc. (ATOFINA) is submitting results from a skin sensitization study in guinea pigs to the Environmental Protection Agency (EPA) pursuant to Toxic Substances Control Act (TSCA) Section 8(e). This study provides information on benzoyl chloride (CAS No. 98-88-4). The study does not involve effects in humans.

Nothing in this letter is considered confidential business information of ATOFINA.

The results of the study showed that the test material induced a sensitization response of about 90% in a guinea pig maximization test.

Results from the study will be incorporated into the ATOFINA Material Safety Data Sheet and label for the material.

Further questions regarding this submission may be directed to me at (215) 419-5890.

Sincerely,

*Debra Randall*
